

## Corporate Partners Program

The ACMG Foundation's (ACMGF) Corporate Partners Program maximizes your exposure to today's leaders in medical genetics and genomics. Our members are an elite community, board certified in all areas of medical genetics. They created the science and brought it to where it is today. We recognize that therapeutic, diagnostic and other related businesses are our natural allies in translating genes into health. Partnering with ACMGF provides a forum in which industry and individual members of the profession can, together, find common causes in our shared imperative: **effective diagnosis and treatment of genetic diseases**.

Corporate Partners can receive benefits at their contribution level during the following calendar year. See below for all member benefits at each level.

Partner Benefits	Corporate Friend <\$10,000	Silver Partner \$10,000+	Gold Partner \$25,000+	Platinum Partner \$50,000+	Diamond Partner \$100,000+	Diamond Champion \$250,000+
